

# Safety in the Lab, on the Job and at Home

Safety is the responsibility of everybody but ultimately it is up to you.

## On the job and at school:

WHMIS: Workplace Hazardous Materials Information System

Information is provided in 3 ways:

- \*WHMIS – product label

- \*MSDS (material safety data sheet)

- \*Worker Training

Symbols are always in circles.

## At home

HHPS: Household Hazardous Product Symbol

Symbols convey dangers

Outer shape conveys whether it is product or contents that cause the danger.
